There are AAAEF members across all USA and in many Asian cities. AAAEF Members receive and enjoy many tangible and non-tangible benefits whilst helping AAAEF promote public understanding about issues concerning Asia and create links with and between countries in the region.

We are in 21st. Century, Our AAAEF --, a new way of education is here to stay. AAAEF -- University offers self-paced, guided independent-study degree programs designed specifically for the mid-career professional. This unique, self-paced online class enables students to earn their degree on their own time. Students are chosen up to 18 months to complete their studies, and since there is no formal classroom attendance required, they can complete their coursework as their personal and professional commitments allow. Headquartered in Washington DC with operations Internationally, AAAEF -- also offers services to foreign colleges and universities in student recruitment business and coordination, especially in government relations.

Investors in the Company will include and update others Investment Fund Companies. AAAEF -- University's online degree programs are widely accepted and recognized within business and industry. AAAEF -- University is a licensed post secondary institution pursuant to the State of Virginia as a SAMPLE Private Schools Licensing Act W.S. 21-2-401 through 21-2-407. (application Pending) Recognizing that professional students already possess a wealth of knowledge in their chosen field, AAAEF -- University's evaluation process grants credit for previous experience by taking the student's educational and professional experience into account. Thus, the qualified student does not have to repeat basic courses that have already been mastered. Because of this unique approach, five years of full-time work experience are required to be considered for admission into the University. Committed to providing the adult learner with a quality post secondary education, AAAEF -- University offers a selective academic curriculum comparable to that of traditional universities. The selection of excellent and challenging curriculum is central to this philosophy. AAAEF -- University staff regularly reviews the curricula of major universities within the United States. Course offerings are frequently updated to remain current with the theories and academic trends advanced in traditional academia. To foster personal relevancy, students are encouraged to select courses that are compatible with their occupational and professional objectives. Thus, areas of study are directly applicable to the student's professional environment and serve to augment and enhance previous knowledge and skills. AAAEF -- University's esteemed adjunct faculty are actively involved in creating each and every course that the University offers. A majority of the University's adjunct faculty hold doctorate degrees from regionally accredited universities, currently teach at colleges throughout the United States and possess ample experience in the private sector. This combination of academic and real-world experience enables the faculty to provide useable, relevant course content that students will put to work in their chosen field. AAAEF -- University's recognized degree programs span the realms of business and industry. Degrees are available at the Bachelor's, Master's, and Doctorate levels. Currently, AAAEF -- offers programs in the following areas:

- Business Administration
- Executive Business Administration
- Human Resource Management
